

22 February 1982

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Call from Adm. Stansfield Turner,
22 February 1982

Former DCI Stansfield Turner called this afternoon to relay a message he had received from [redacted] of the American Hoist and Derrick Company located, I think, in St. Paul, Minnesota. His telephone number is [redacted] [redacted] who is known to Adm. Turner, says his company is in possession of a technique to deposit materials (like titanium) on various kinds of surfaces in a vacuum. [redacted] claims that his process is the most effective of this type. He further says that there is only one other U.S. company that has a similar capability and that they are licensed by the Soviets. Adm. Turner asks if we would have someone contact [redacted] and see whether his process might be of any value to us.
